

The international Festival of Garden HORTILLONNAGES AMIENS (12th season)

This 12th season of the international gardens|Hortillonnages Amiens proposes the public to discover some, fifty creations by a new generation of landscapers, architects, visual artists and designers from all over the world. Scattered over the islets of the unique site of the Hortillonnages, these creations -gardens and visual works- give an offbeat and poetic look on this complex environment. The approach of the site, its history and future, the link between man and nature, may be funny or critical but new at any rate. This project is an answer to thoughts and current questioning on sustainable development and environment issues.

An artistic landscape trip to explore on your own or to go along with groups!

*Silent electric boat, life jacket, site map and cell phone number available for you to discover the Festival. **Duration of boat trip: 2:30 hours***
